July 2024 – Present | Seattle, WA

- Defense, Space & Security - Research & Technology Electrical Parts, Materials and Processes. Review Drawing, Review Specs and Write New Assembly Specs. Response Supplier Query Notes and Onsite Support.
- Instruct and Support Internal and External for Entirely Aircraft Power Distribution Systems.

WOOD HARBINGER
May 2023 – July 2024 | Seattle, WA

- Design Medium Voltage 5KV-35KV Unit-Substations, Dry Dock, and Craned in Revit for NAVBASE Kitsap Bremerton, Washington USA:
    - Transformers, Generators, ATS, Switchgears, Relay, VFDs, Motor Starters.
    - Above and Underground Power Distribution.
    - Sections & Elevations, Grounding, Lighting, Conduits and Cable Raceway.
    - Knowledge of ETAP Cable Point Calculations.

FEDERAL AVIATION ADMINISTRATION
June 2022 – May 2023 | Seattle, WA

- Electrical Resident Engineer on site:
    - Main Distribution Panel and Critical Panel.
    - DC BUS and Battery.
    - UPS, Maintenance Bypass Panel, ATS, Load Bank, and CamLock.
    - ELD (Electrical Line Distribution) cable.
    - LPGBS (Lightning Protection, Grounding, Bonding and Shielding).
    - Engine Generator - Standby Power Distribution System:

- Temporary EG.
- ATS
- Intake Louvers.
- Daytank.
- Battery Charger.
- Temporary Panel
- Conductors, and Fuse Disconnect Switches

MCKINSTRY COMPANY LLC.
March 2021 – September 2021 | Seattle, WA

- Model setup in Revit 3D for Commercial Buildings, Existing Buildings and Solar PV System – Design.
- Designing new and retrofit code-complaint, energy-efficient power, one-line diagram and panel schedules.
- Experience with engineering software including SKM and Easy Power.

RUSHING COMPANY LLC.
July 2018 – January 2021 | Seattle, WA

- Implemented Electrical and Fire Alarm designs within Revit for Sound Transit Lynnwood Link.
- Knowledge in Foot-candle, Elum Tools, and AGI32 Simulation tools designing lighting.
- Experienced in Construction Administration (CA) and Quality Change (QC) for Sound Transit East Link and Lynnwood Link.
- Processes and reviews project submittals and RFIs as appropriate (log, route for review, stamp, return to general contractor, etc.)
- Revised and updated specifications for both Links when it needed.
- Knowledge in NEC, ASME and NFPA 70 & 72.
